

ECP

Environmental Containment Package

SPECIFICATIONS

Type	Fully Enclosed Containment System for Pneumatically Operated Or Electric Driven Pump Systems
Pump Options	BR1100, BR2400, BR4300, BR5000, BR5100, BR6000, BRX3
Tank Sizes	50, 100, 150, 200, 250 Imp. Gal. (227, 454, 681, 909, 1136 Litres)
Length	102" (2.60 m)
Width	50" (1.27 m)
Height	76" (1.93 m)
Weight	Approx. 1000lbs (454 kg)

Product Details

The Bruin ECP is a self-contained package that houses the chemical injection pump, chemical tank and all tubing, gauges and accessories. Full system is enclosed, eliminating collection of rain, snow, dirt or trash into the secondary containment, maintaining its full capacity while eliminating costly clean outs resulting from natural collection of these materials. Entire system is fully supported with metal frame and fully assembled allowing easy setup and relocation if required. The Bruin ECP can easily be moved without disassembling the components and fits into the bed of a standard truck box.

Highlights

- Sturdy access door allows for easy access for viewing and maintenance.
- Top portion of enclosure easily opens, allowing full access to contents if required for larger maintenance or replacement procedures.
- Fully enclosed system prevents wildlife and livestock from drinking containment fluids.
- Avoid costly spills and reduce ground contamination.
- Side panel entry access for power, instrument/gas line, discharge line hookup.
- Forklift access ports - Allow for ease of transportation, loading and unloading. Can be used for sling location lifting points.
- Tank filling is accessible through a threaded top hatch or an optional top fill system that allows filling of the tank through the front access door. System incorporates a pipe extended to the bottom of the tank to reduce agitation and foaming during filling with a suction break hole to eliminate any siphoning effect. Cam lock or any type of connector can be accommodated.
- Fits into a standard truck bed allowing for easy transport.
- Rubber cover straps hold top cover in position.
- Triple hinge opener complete with grounding cables.
- Optional removable safety access stairs for easy top hatch access.
- Available in a variety of colors.
